PROFILE

Second-year diploma student at MIT-WPU with an interest in frontend development and AI-powered applications. Exploring web technologies and AI-assisted prototyping through projects in progress, while strengthening programming fundamentals through hands-on practice and independent learning. Seeking an internship in frontend or AI application development.

PROJECTS

RetiPath-AI *IN PROGRESS*

AI-assisted retinal screening and triage concept exploring preliminary image assessment and case-prioritization workflows.

NeuraFace Studio *IN PROGRESS*

Camera-based face enrollment and identification application concept, with attention to interface design and usability.

OhMyPoly *IN PROGRESS*

Student attendance-analysis application concept exploring clear presentation of attendance information.

LEADERSHIP AND ACTIVITIES

Team Leader — Team Oscillon

Participated in the Smart India Hackathon 2026 university internal selection process; contributed to team planning and preparation of the proposed solution.

Student-club documentation and coordination

Supported meeting notes, formal communications, and event-related organization associated with IGNISIA / INCUBEX.

TECHNICAL SKILLS

Programming
Python and C (foundational knowledge)

Frontend
HTML, CSS, JavaScript; React (hands-on exploration)

Backend and databases
FastAPI, SQL, PostgreSQL; Node.js integration (explored)

EDUCATION

Diploma in Computer Science, Artificial Intelligence and Data Science
MIT World Peace University (MIT-WPU), Pune
Second-year diploma student
FY result: 7.56 CGPA

Class X — CBSE
Aaryans World School
2025 • 76%

COURSES AND CERTIFICATIONS

HTML Essentials
Cisco Networking Academy · Nov 2025

Be10X Workshop
May 2025

Smart School FinTech Innovation Challenge 2026
Certificate of Participation · Unstop · Aug 2026

Full Stack Web Development — 1Stop
In progress

TOOLS

AI-assisted development
GitHub Copilot, Claude Code, Claude Cowork, Google Antigravity, Google AI Studio

Design
Figma, Google Stitch

Research and creative
NotebookLM, Julius AI, WhisperFlow, ElevenLabs, Higgsfield AI
